About Me

Passionate about technology and the development of web applications that offer real solutions to everyday problems. I enjoy designing intuitive, user-friendly, and visually clean interfaces. I value clean, reusable, and well-structured code architecture. I have leadership skills and strong communication abilities, and I enjoy working as part of a team while maintaining a positive and productive work environment. I am constantly learning and open to acquiring new technologies and skills to meet the needs of any project or job.

Professional Profile

Junior Full Stack Developer with a strong focus on frontend development using Angular. Skilled in both backend and frontend technologies such as TypeScript, JavaScript, Python, Go and Java. Experienced in creating scalable applications with clean code architecture. Specialized in UI/UX design and building intuitive user interfaces using tools like Figma and Canva. Known for teamwork, leadership, and maintaining a positive collaborative environment. Continuously learning and adaptable, always willing to embrace new technologies and tools as required by the role.

Education

Bachelor's Degree in Software Engineering
Universidad Politécnica de Chiapas   *2023 – Present*
Currently enrolled in the sixth trimester.

Professional Experience

Professional Internship – Frontend Team Leader
Sistema Unidad Médica de Suchiapa — Project: SUMS   *April 14 – May 2, 2025*

- Led the frontend development team for the SUMS population census system.

- Developed modular components in Angular following Clean Architecture principles.

- Designed UI/UX interfaces using tools such as Figma and Canva.

- Promoted a collaborative work environment and effective team communication.

- Used GitHub as a version control tool to manage the project's codebase.

Hackathon Participant – Full Stack Developer
Gear Hackathon with Varanetwork   *October 2024*

- Worked as a Full Stack Developer implementing a Web3.0 (blockchain) based solution for a real-world problem.

- Contributed to both frontend and backend development, integrating decentralized technologies.

- Collaborated in a multidisciplinary team under time constraints.

Technical Skills

– **Languages:** TypeScript, JavaScript, Python, Go, Java, HTML, CSS

– **Frameworks and Libraries:** Angular (specialized), React, Vue, Express, Flask, FastAPI, JavaFX

– **Tools:** Git, GitHub, Figma, Canva, CorelDRAW

– **UI/UX Design:** Prototyping, visual design, accessibility, usability

Certifications

– Google UX Design Professional Certificate — Coursera
  View Certificate

– Introduction to Java — UNAM (National Autonomous University of Mexico) - Coursera
  View Certificate

Languages

– Spanish (native)

– English (intermediate)
